

David Román Aguirre

iOS & web developer

PROJECTS

Meridian

An app specifically crafted to relive your experiences around the world in an elegant and easy way.

deerduet.com/meridian

Popsicle

A Swift framework for creating and managing interpolations of different value types with built-in UIKit support.

github.com/DavdRoman/Popsicle

Bohr

A framework that allows to set up a settings screen for your app with three principles in mind: ease, customization and extensibility.

github.com/DavdRoman/Bohr

DRCellSlideGestureRecognizer

A library that allows developers to make cells actionable through swipes, a là Mailbox.

github.com/DavdRoman/DRCellSlideGestureRecognizer

DRPageScrollView

A library that wraps around UIScrollView in order to make paginated scroll views using a block-based approach.

github.com/DavdRoman/DRPageScrollView

AWARDS

Apple WWDC Scholarship
2013

Apple WWDC Scholarship
2014

SKILLS

Objective-C

ReactiveCocoa

Python

Node.js

Swift

Haskell

Speedcubing
